EDUCATION

Vellore Institute of Technology (VIT), Chennai

Bachelor of Science in Computer Science | CGPA: 8.99/10

Expected 2027

Sri Matha Matriculation Higher Secondary School

Higher Secondary Certificate (HSC) | 87%

Class XII

EXPERIENCE

Engineering Intern | Ventura Automations

Chennai, India

May 2025 – June 2025

- Contributed to an R&D-based; industrial fabric width measurement system using image processing methodologies.
- Worked with OpenCV, Python, and hardware-integrated tools for measurement calibration and testing.
- Assisted in coding, system testing, and optimization to improve measurement precision.
- Helped achieve highly accurate width detection with a maximum error margin of ± 0.05 mm for thick fabrics.

PROJECTS

Fabric Width Measurement System

OpenCV · Python · Image Processing

- Developed an industrial fabric width measurement system capable of precise real-time measurements.
- Implemented image processing and IR-light-based methodologies to improve detection accuracy.
- Achieved measurement precision with an error margin of approximately ± 0.05 mm for thicker fabrics.
- Collaborated in a team-oriented R&D; environment involving testing and calibration workflows.

Deepfake Detection System in Cross-Dataset Environments

Hadoop · Apache Spark · Spark MLlib · PySpark · Ubuntu

- Built a deepfake image detection system trained on CelebDF and FaceForensics++ datasets.
- Implemented Logistic Regression models for cross-dataset classification and analysis.
- Achieved approximately 94% detection accuracy during evaluation.
- Utilised distributed computing tools and big-data frameworks for scalable processing.

YouTube Metrics Analytics Model

Python · Machine Learning · Data Analytics

- Developed a machine learning-based analytics model to study factors influencing YouTube video engagement.
- Analysed features including views, likes, dislikes, comments, like ratio, comment ratio, and engagement score.
- Implemented Linear Regression, Multiple Linear Regression, Random Forest Regressor, and XGBoost Regressor.
- Identified correlations between engagement metrics and audience interaction trends.

TECHNICAL SKILLS

Languages	Python, C++, Java, C, JavaScript, PHP
Web Technologies	HTML, CSS
Databases	MySQL
AI/ML & Data Science	Regression Models, Image Processing, Machine Learning
Tools & Platforms	OpenCV, Apache Spark, Hadoop, PySpark, Linux, Excel, Canva, Photoshop
Other	SEO, Data Analysis

INTERESTS

Software Development · Artificial Intelligence & Machine Learning · Data Science
